

# A prayer for wisdom and direction

God, I need wisdom. I can see reasons in more than one direction, and I am afraid of making the wrong choice. Quiet the pressure that tells me I must understand everything immediately.

Show me what is true. Help me separate facts from fear, wise caution from avoidance, and genuine peace from simply choosing what feels easiest. Bring Scripture to mind that shapes my character, not just my preference. Send counsel from people who are honest, grounded, and willing to challenge me.

Guide my decisions about work, relationships, parenting, money, and every new season. Help me consider the people affected by my choice and honor responsibilities I cannot ignore. Close doors that would draw me away from wisdom, and give me courage to walk through the right door even if it is unfamiliar.

When no answer feels dramatic, teach me to take the next faithful step and remain teachable. I trust You to correct my course as I seek You sincerely. Lead me with truth, patience, and peace. In Jesus' name, amen.
